INSTRUCTIONS FOR PREPARING ARTICLES

All contributions must conform to the current MLA Style Manual (8th edition). Submissions using other styles or not conforming to the MLA Style Manual may be rejected. Submissions written in Spanish or Portuguese may use traditional punctuation that does not necessarily reflect MLA standards. We only accept electronic submissions. The peer review process is double-blind, so author names and academic affiliations should not appear on manuscripts until after they have been accepted for publication.

STYLE, FOOTNOTES, AND BIBLIOGRAPHY:

We use the system of parenthetical notation conforming to the MLA Style Manual (8th edition). Discursive notes are permitted, but they must be limited in number; references to works cited should be given parenthetically in the notes section just as they are in the text. Each article must have a list of Works Cited. There is no need to write “Print” or other form of publication after the citation itself. Please arrange your article components in the following order:

TITLE; NAME; UNIVERSITY AFFILIATION; TEXT OF ARTICLE; NOTES; WORKS CITED

FORMATTING:

We use computer-formatted text to expedite publication. The final version of your article should, therefore, be provided in a Microsoft Word-compatible format. Your document should be the version of your final text EXACTLY as you wish it to appear.

Please observe the following requirements in formatting:

MARGINS: Left and Right: 1”; Top and Bottom: 1”.

TITLE: Centered and all caps on first page with a 1.5” top margin.

AUTHOR’S NAME: Centered and double-spaced after the title using regular capitalization.

AUTHOR’S AFFILIATION: The author’s institution will appear double-spaced after the author’s name, centered, regular caps.

HEADERS: None. Please DO NOT use your program's header function.

TEXT: Your article should be double-spaced.

PAGE NUMBERS: Automatic page numbering is acceptable, but please place them in the upper righthand corner of each page.

ITALICS: Please use the italics function, do not underline.

NOTES: Be sure that the numbers are sequential and that each number in the text refers to the correct note at the end of the document.

Your cooperation in these matters will facilitate the prompt publication of the journal. It is the responsibility of the author to provide a very carefully prepared text, as free as possible of typographical and grammatical errors.
